ABBREVIATION REFERENCE: AIR = American Indian Reservation; Trust Land - OFF: Reservation Trust Land; TJSA = Tribal Jurisdiction Statistical Area; TDSA = Tribal Designated Statistical Area; ANVSA = Alaska Native Village Statistical Area; ANRC = Alaska Native Regional Corporation; CDP = Census Civil Division.

CDP = Census Designated Place; BNA = Block Numbering Area

FEATURES

All Roads	<i>Stream/Shoreline</i>
Railroad	<i>Intermittent Stream</i>
Pipe/Pneum Line	<i>River</i>
Physical Feature	<i>Glacier</i>
Nominative Boundary	

Inset

Out Area

Where international, state, and county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

¹ A "—" following a place name indicates that the place is also a false MCD.

² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a "99" suffix. An anchor symbol appeared on the 1990 maps locating a crew-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

¹ A "•" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a ".99" suffix. An anchor symbol appeared on the 1990 map indicating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.

The diagram illustrates the hierarchy of land use boundaries from most permeable to least permeable. It consists of several horizontal lines and boxes, each representing a different type of boundary. From top to bottom, the elements are:

- A solid black line labeled "All Roads".
- A line with vertical tick marks labeled "Railroad".
- A line with small squares labeled "Fire/Power Line".
- A line with a dashed pattern labeled "Physical Feature".
- A line with a dotted pattern labeled "Nonvisible Boundary".
- A blue dashed box labeled "Neighborhood".
- A grey box with a dotted pattern labeled "Inset".
- A white box with a solid black border labeled "Out Area".

On the right side of the diagram, there are three wavy, cloud-like shapes representing different types of streams or shorelines, each with a label:

- A blue wavy shape labeled "Stream/Shoreline".
- A green wavy shape labeled "Intermittent Stream".
- A red wavy shape labeled "River".

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

¹ A "•" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a ".99" suffix. An anchor symbol appeared on the 1990 map indicating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.

All legal boundaries and names as of January 1, 1990 as tabulated for the Public Law 94-171 and Summary Tape File products. The boundaries also reflect the feature network and coordinates as of the Census 2000 geographic base. Since 1990 the Census Bureau updated the base from the North American Datum of 1927 (NAD27) to the datum as of 1983 (NAD83) and made numerous updates to the base features from those depicted in 1990. The boundaries shown on this map are for the Census Bureau's statistical data collection and tabulation purposes only; their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights or ownership or entitlement.
